In re the Reissue Application of:

Attorney Docket No. 1915.14US03

Kasner et al.

Confirmation No: 9685

Application No.: 09/862,905

Examiner: M. Safavi

Filed: 22 May 2001

Group Art Unit: 3635

For: RIDGE CAP TYPE ROOF VENTILATOR

SUPPLEMENTAL DECLARATION UNDER 37 C.F.R. § 1.175

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We, Gary P. Kasner, 8335 Mitchell Rd., Eden Prairie, MN 55344, a citizen of the United States, Mark S. Stoll, 19055 Eastwood Drive, Excelsior, MN 55331-9117, a citizen of the United States, and Richard J. Morris, 15987 Island View Road, Prior Lake, MN 55372, a citizen of the United States, in supplement to the Declarations previously submitted in the above-identified reissue application and incorporating the same herein by reference as though fully set forth, hereby declare that:

1. We have reviewed and understand the contents of the reissue specification, including the claims, as amended by the amendments and as specifically referred to herein.
2. We believe ourselves to be the original and first inventors of the subject matter, which is claimed and for which a reissue patent is sought.
3. We acknowledge the duty to disclose information material to the examination of this application in accordance with 37 C.F.R. § 1.56, including any public use, sale, or offer of sale of the disclosed invention occurring more than one year prior to the filing date of the application from which the present Patent issued.
4. We believe the original patent to be partially or wholly inoperative because Applicants claimed more or less than Applicants had a right to claim in the patent, e.g., a claim in

non-Jepson format reciting, in part, a recessed area in a top panel of a roof ventilator, the recessed area being non-linear in cross section, which is broader in scope than, e.g., claim 9, which recites a recessed area having a pair of side walls traversing a generally oval-shaped path.

5. Every error in the patent sought to be corrected in the present reissue application, and which is not covered by the prior declaration(s) submitted in this application, arose without any deceptive intention on the part of Applicants.
6. All statements made herein of our own knowledge are true and that all statements made on information are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
